

APPLICATIONS

2D Echocardiography applications and Cardiovascular Reporting

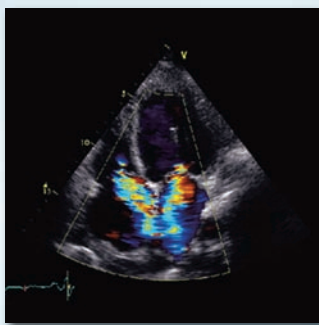

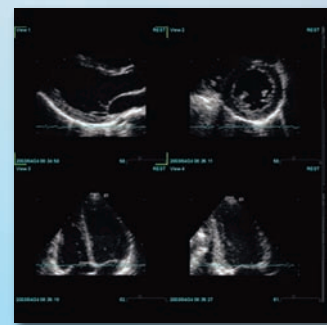

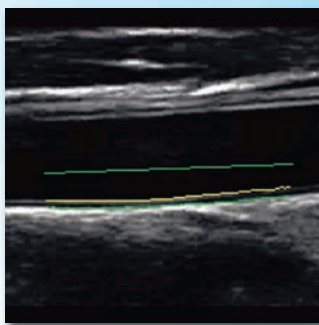

Image-Com[®]
Comprehensive 2D image review, measurements and reporting

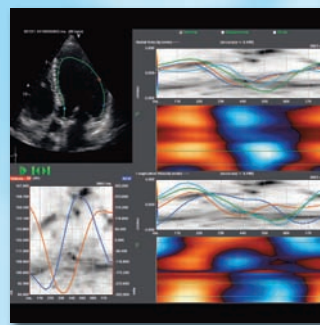

Re-Com^{TM 1}
Semi-automatic reporting and documentation in cardiology

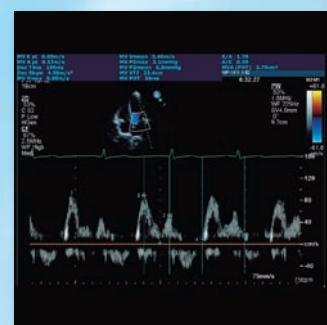

Echo-Com[®]
Routine optimized stress echo review

M'Ath^{® 1;2}
Semi-automated atherosclerosis measurements like IMT, distensibility, diameter, plaque area

2D CPA[®]
Global and regional assessment of myocardial mechanics

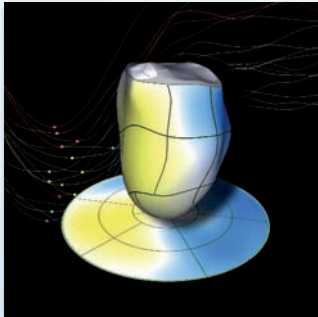

Cardiac Measurements
Complete package of echocardiography measurements

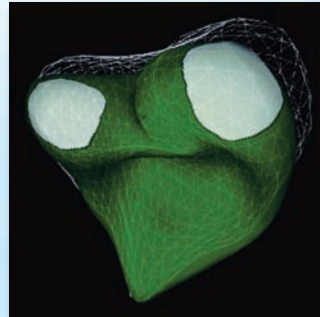

1) TomTec marketing material can refer to products which are only available for sale in specific countries. For product availability, please contact your local TomTec representative
2) M'Ath[®] is a trademark of Intelligence in Medical Technologies

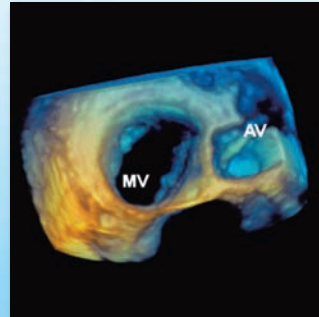

4D Echocardiography

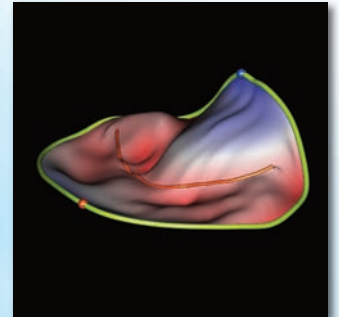

4D LV-Analysis^{® 1}
Quantification of left ventricular function, dyssynchrony, strain and twist

4D RV-Function[®]
Quantification of right ventricular volumes and function

4D Cardio-View[™]
Routine-oriented review and quantification of 3D Echo data

4D MV-Assessment[®]
Simplified visualization and quantification of mitral valve disease

Cathlab

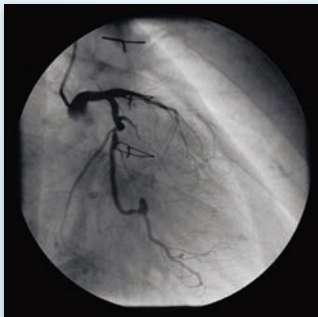

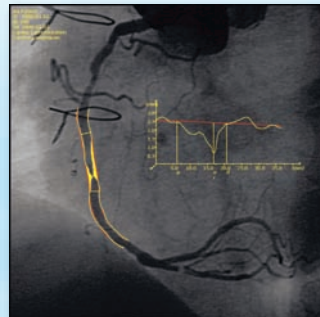

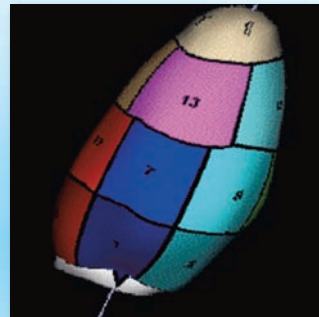

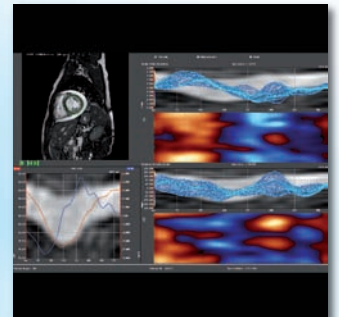

Image-Com[®]
Coronary Angiography Review

QAngio^{® XA}²
Automatic quantification for cardiac catheterization labs

4D LV-Analysis MR[®]
Quantification of left ventricular function and dyssynchrony

2D CPA MR^{® 1}
Global and regional assessment of myocardial mechanics
